In one hand, whatever the price is .. it is too expensive .. and the Banner\Cover it's a lie like the games of the 90's with amazing covers and trashy GFX.. it's just a Pond Koi fish simulator with an intentionally-awful-visual-design
.....
.....
.....
but it can give you pleasure... for reasons.. and the in-game music is pretty cool ;)

Get it and push the limits of your Watercooled Ryzen 2700X + RTX2080TI + 32G RAM + 3440x1440 Display
